Governors Favor Doing Away With CITIES PLAN RELIEF FOR Chinese Parliament.

PEKIN, Dec. 19.—President Yuan Shi Kai's plans for permanently doing away with the Chinese parliament received the unqualified endorsement of the civil and military governors of all provinces today. The president's design of obtaining a round robin endorsement will evidently strengthen his hands for autocratic measures being instituted and for the movement of the financial measures designed to aid the national treasury, now occupying Yuan's attention. Foreign bankers recently gave the president to understand that bankruptcy is ahead for the Chinese republic unless conditions are immediately aftered and the government adopted drastic measures.
